

===== Real Time Applications Developed  
By using Python Programming =====  
=>By using Python Programming Lang, we can Various Applications / Projects / products. They  
are 1. Web Application Development a) Java Lang----->Servelets, JSP, Spring, Spring Micro  
Service, Boot....etc b) C#.net lang--->ASP.net c) Python Lang---->Django, Falsk, Pyramid, Bottle  
2. Artificial Intelligence Applications (AI) a) Machine Learning b) Deep Learning 3. Gaming  
Applications 4. Desktop GUI Applications 5. Image Processing Based Applications 6. Text  
Processing 7.Business Applications Development (B. Apps) 8. Audio and Video Based  
Applications 9. Web Scrapping OR Web Harvesting Based Applications 10. Data Visulization 11.  
Scientific Application development 12. Software Development (Project development) 13.  
Operating System Installers. 14. CAD and CAM Based Applications 15. Embedded Applications  
development. 16. IOT Based Applications. 17. Console Based Applications. 18. Language  
Development 19. Automation Testing 20. Animation Applications 21. Data Analysis and Data  
Analytics 22. Education Programmes...etc
